Re: Successful Experience

Paul,

This is to assure anyone in need of capable Construction Management or Commissioning services that they will be more than satisfied trusting your Firm to get the job done right. You are one of the very best Construction Managers I have had the opportunity to be associated with. Experienced, knowledgeable, and a fine person.

Projects where I have benefitted from your capable and ethical CM performance include Intel Fab 17, Hudson, MA; Merck Biologics Pilot Plant, West Point, PA; IBM Fab, Essex Junction, VT; Micron Technologies, Lehi, UT; and projects in Colorado.

Please feel free to have any of your Clients give me a call if I can answer any questions. Wishing you continuing success and prosperity.

Very truly yours,

Bill Voltmer
Sr. Construction Mgr.
